## HAMILTON POLICE SERVICE

September 19, 2013  
Attn: Mr. John Williamson,  
Drive for Life  
225 Erin Mills Parkway  
Mississauga, Ontario L5K 1T9.

Dear Mr. Williamson:

### **RE: Drive for Life Training at the Hamilton Police Service**

On behalf of the Hamilton Police Service we would like to express our thanks and appreciation for the training program you have helped us create as part of our annual training plan.

For our training needs and constraints the fact that Drive for Life has created a simulator type experience that we are able to deliver in a classroom setting is a significant innovation. This allows us to move the proven simulator exercises onto a more mobile and flexible tablet format.

The development of this program has enhanced the hands on training element of the training program by eliminating the challenges of simulator based training, which were barriers for us in the past, namely; higher cost, lack of mobility and motion sickness.

In addition the training Drive for Life has developed has taken the simulator element one step further by taking the cognitive element of the training and creating relevant gaming exercises that supplement the real world driving training scenarios that were previously provided.

Initial students commented that, "This was great. The tablets and interactive part of the presentation was good, it broke it up nicely." and, "Wow, totally different approach, liked it." The Hamilton Police Service among its values strives for education and innovation and this program will help us achieve that goal.

Sincerely,

Deborah Clark  
Superintendent  
Professional Development Division  
Hamilton Police Service
